

Do you have or have you been diagnosed with DROOPY UPPER EYELIDS?

If so, you could take part in a clinical research study for RVL-1201 Ophthalmic Solution, an investigational drug for droopy upper eyelids, medically known as ptosis. You may qualify if you:

- Are at least 9 years of age.
- Have ptosis in one or both eyes

Participation may last 6 to 12 weeks and include at least 4 visits. Study-related medication and exams will be provided at no cost to you. You may be compensated for your time and travel expenses.

To find out more about this study, please contact:
